Hi, Barry --

Glad to hear you're still doing well. I've been doing some very limited consulting since leaving EPA and got sucked into the Lower Passaic vortex several years ago. Very interesting problems there, for sure.

Here's a letter that Bill Hyatt sent to Mathy today with some additional follow up information. I wanted to make sure you got a copy.

Enjoy the snow and take care --

Stalcup, Dana

Mathy,

One of the issues that we discussed during our meeting with you was our conclusion that the CPG's remedy is as or more effective as bank-to-bank dredging. Attached, is a letter from the CPG explaining our reasons in more detail. Please let me know if you have any questions. We would be happy to discuss these matters further.

Regards,

Cliff

***** ATTACHMENT NOT DELIVERED *****

This Email message contained an attachment named
image001.jpg
which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you

should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.

Mathy,

Thanks again for meeting with us last week. One of the issues we discussed was inconsistency of the FFS with the NCP. Attached is a letter from the CPG explaining in more detail the reasons why the FFS is inconsistent with the NCP. Please let me know if you have any questions. We would be happy to discuss these matters further.

Regards,

Cliff
